

CONFLICT WITH DAD OVER PAYMENT OF SCHOOL FEES

Agya Manu comes from Japekrom. He is a cocoa farmer and has built for himself a nice house he lives in with his family. He is married to Aunty Serwaa and they have three beautiful girls of which Becky is the eldest. Agya Manu has never been happy with the fact that all his children are girls. Infact he had wished for boys whom to him could support him in his farm activities and succeed him when he dies. Agya Manu has never taken the upkeep of his three daughters serious.

Becky is in her third year at Our Lady of Providence Senior High School. Her two siblings Pokuaa and Benewa are in JHS 2 and primary 5 respectively. They are always sacked home for not paying their school fees. Agya Manu will only pay the schools fees after they have been sacked several times from school. The worse of this is the fact that Agya Manu lavishly spend on young girls in the town.

The non payment of school fees of Becky and the siblings has affected their performance in school. Becky is always worried about this situation. As usual she was sacked home after the mid-term break for her school fees. She felt very frustrated, sad and hated the world she lives as she felt it was not fair to her. As she walked home with all hope lost of receiving any favourable response, from her parents, she saw her father(Agya Manu) at a restaurant sitting over bottles and kebabs with a girl alleged to be his girlfriend. She walked straight to the girl and gave her a good slap. Agya Manu became vary annoyed and vowed to disown Becky. Both Becky and Agya Manu belong to the Messiah Church in Japekrom. Becky has reported the impasse to you as church elders for resolution. Resolve this impasse between Becky and Agya Manu.

Simulation

For this simulation, you have to pick "actors" for the following roles:

- Becky
- Agya Manu
- Mediator 1
- Mediator 2
- Mediator 3

DORMITORY CONFLICT

Ola Girls Senior High School is located in Asutify district of the Brong Ahafo Region. It is the first all Girls Senior High School in the Brong Ahafo Region of Ghana. The school is noted for its high discipline of its students. Every Saturday morning 10am, there is an inspection by the school prefects, supported by the house mistresses of all the dormitories. Neat houses and students are awarded whilst dirty students and houses are punished after each inspection. There are lockers in the school which is shared by two students per one locker because they are not enough for each student to have one locker to herself.

Rose and Emily are in Imelda's house one of the houses in the school. Rose is a second year student whilst Emily is a first year student. Rose shares the same locker with Emily. Emily is very organized and orderly. She will always arrange her things very well in the locker at the space allotted to her and will lock the locker any time she is leaving the dormitory. In fact she makes sure area in and around the locker space is always tidy. Rose on the other hand is quiet disorganized, careless and will always leave the locker untidy. Sometimes she leaves the locker unlocked when going out of the dormitory which leaves items belonging to both being stolen out of the locker. The worse of it is that the untidiness and careless life of Rose sometimes result in punishment for the two of them. The situation became unbearable to Emily hence reported to you as house prefects for resolution.
